

28<sup>th</sup> February 2024

**Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)**

**Statement of XL Precision Technologies Compliance with REACH/SVHC**

---

Under REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, EC 1907/2006) the European Union's chemical regulation, Article 33 requires a supplier of manufactured and imported articles to communicate Substances of Very High Concern (SVHC) to the next level in the supply chain if they are present above a concentration limit of 0.1 % on an article level.

The UK REACH and the EU REACH regulations operate independently from each other.

This communication applies to all products sold or otherwise placed on the market by XL Precision Technologies prior to the signature date of this declaration, and conforms with the most recent candidate list as updated on the 23<sup>rd</sup> January 2024 to certify that none of our products contain any substances on the Candidate List of SVHCs over the allowable concentration threshold.
